

- Automatic Ollama summaries for every visualization and statistical analysis

I am confident that I can complete the revised scope. The core functionality is now operational, and the remaining work focuses primarily on expanding the analyses, improving documentation, refining AI summaries, and polishing the overall presentation.

A screenshot of the Grammarly sign-up screen. At the top, there is a dark header bar with a white exclamation mark icon on the left and a white 'X' icon on the right. Below the header, the text 'Sign up to use Grammarly' is displayed in a large, bold, black font. Underneath this, the text 'Creating an account is fast and free!' is shown in a smaller, regular black font. In the center of the screen, there is a light gray rounded rectangular button. On the left side of this button is the Google logo (a multi-colored 'G'). To the right of the logo, the text 'Continue with Google' is written in a black font. On the far right of the button is a small, gray right-pointing chevron icon. Below the button, the text 'Continue another way' is displayed in a black font, preceded by a small, gray icon of a person inside a rounded square.
